**1. Is there anything not covered by the proposed indicators?** (if yes, please explain)

No the proposed indicators are comprehensive.

**2. Are there any indicators that you feel are not appropriate and, if so, why?**

No the proposed indicators are appropriate.

**3. Is there any information we ask for that you feel does not need to be included or that we have been missed?**

No.

**4: Would you like to make any other comments or suggestions about our proposed indicators?**

- It is a correct aim to set high standards for energy efficiency however there should be funding support to meet these standards.
- It is noted that predicted savings in fuel bills compared with estimated high capital upgrade costs are relatively modest.
- Clear guidance on evidence required to be held by us and what level of summary is required in the responses.

**Thank you for taking the time to give us your feedback!**
